COMP 3920

DATABASE SYSTEMS 1

PATRICK GUICHON

ERD AND DATABASE CONVENTIONS

- Use singular in entity/table names
- Use table name and `_id` for auto_increment/Identity PK columns
- Name FKs with same name as PK in PK table
  Ex: `person.`**`person_id`** `= pet.`**`person_id`**
  (with a few exceptions for clarity and/or necessity)
- Don't use . or - or spaces in entity/table names (use _ instead)
- Always split M:M relationships into bridging table
- Use lowercase letters for entity/table and attribute/column names

FIND THE CONVENTION VIOLATIONS
